

Theoretical Learning Outcomes:

1. Mention the pre-press materials.
2. Describe the various press materials.
3. Mention the paper and board manufacturing materials.
4. Mention the printing ink materials.
5. Explain the post-press materials.

Practical Learning Outcomes:

1. Apply the art and copy preparation materials.
2. Identify negative and positive films.
3. Recognize various types of image carriers.
4. Identify the raw materials used in various printing systems.
5. Recognize various types of printing paper, board, and ink.
6. Use various post-press materials.
