- 2.7 Describe the various cabinet hardware.

.

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

??

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

kitchen

A **kitchen** is a room or part of a room used for **cooking** and food preparation.

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

2.2 Describe the types of modern kitchen

The Six Types of Kitchen Layouts

#.1 Galley Kitchen. Also called the parallel kitchen, this is one of the most efficient kitchen layouts. ...

#.2 One-wall Kitchen. ...

#.3 U-Shaped Kitchen. ...

#.4 L-Shaped Kitchen. ...

#.5 Island Kitchen. ...

#.6 Peninsula or G-Shaped Kitchen.

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

2.3 Describe the list of fixture and fittings of modern kitchen.

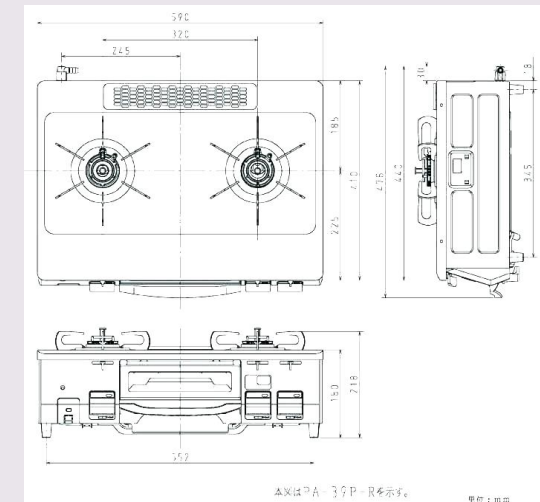

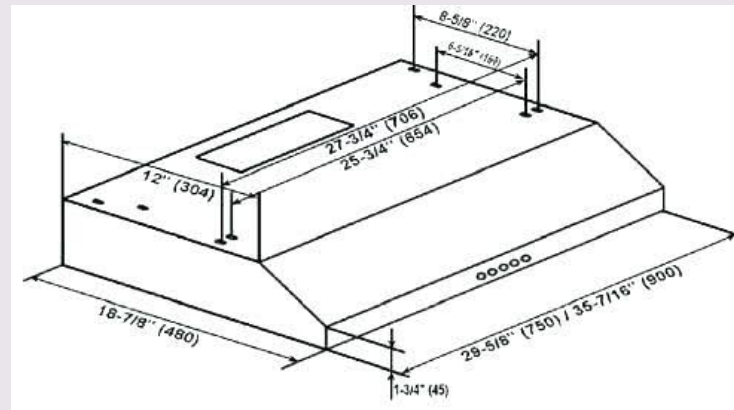

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

2.3 Describe the list of fixture and fittings of modern kitchen.

Range Size:

The **standard** width of a residential **range** is **30** inches, but higher-end **ranges** can extend to **36** inches and beyond. The oven compartment on a typical **range** is **5** cubic feet, compared to just over **3** cubic feet in a typical wall oven

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

2.3 Describe the list of fixture and fittings of modern kitchen.

Sink :

Go down below the surface of something, especially of a liquid

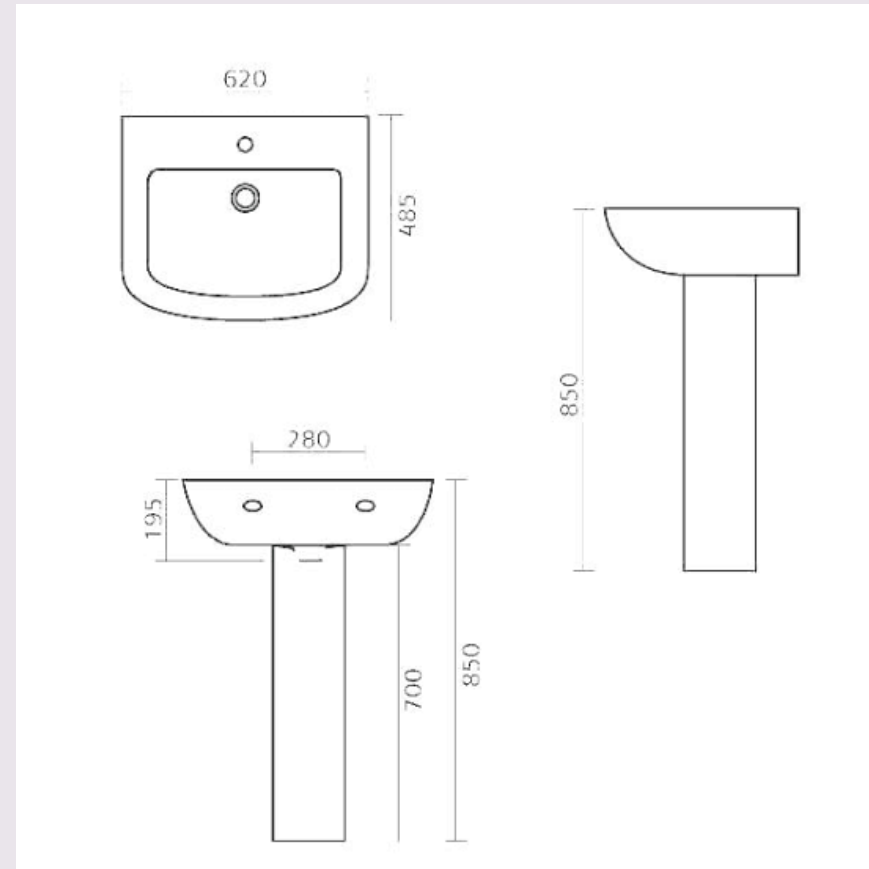

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

2.3 Describe the list of fixture and fittings of modern kitchen.

Sink Size:

The most common sink sizes are **24**, **30**, and **33** inches. Smaller homes and condos will likely go with the **24-inch** size, small yet functional enough to wash pots and pans. Common **24-inch** sink shapes are a square and D-bowl. Sinks **24** inches wide must sit in at least a **27-inch** sink base cabinet.

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

2.3 Describe the list of fixture and fittings of modern kitchen.

There are essentially three **different types of sinks**, each installed in a **different** way:

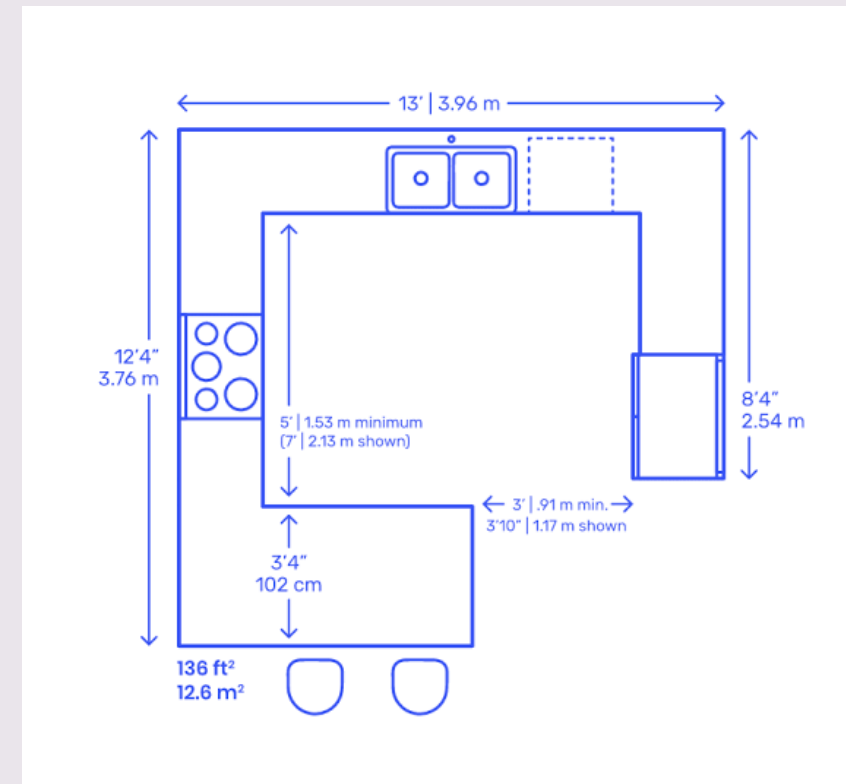

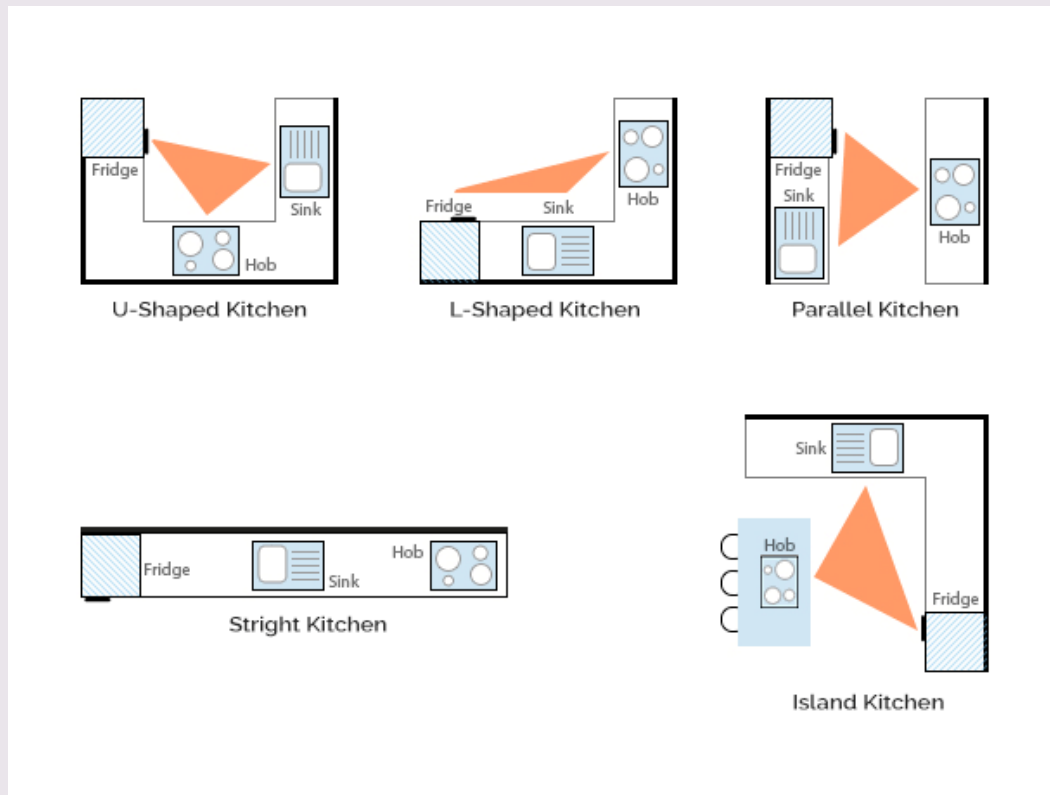

- 1 Top-mount **sinks**,
- 2 Under mount **sinks**,
- 3 Flush-mount **sinks**.

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

2.4 Describe the working triangle of kitchen

"There are basically 6 types of kitchens"

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

2.6 Selection of kitchen cabinet materials of kitchen

Cabinet:

A case with shelves or drawers for storing or displaying articles.

Interior Working Drawing-II (68762)

Construct the detail drawing of modern kitchen.

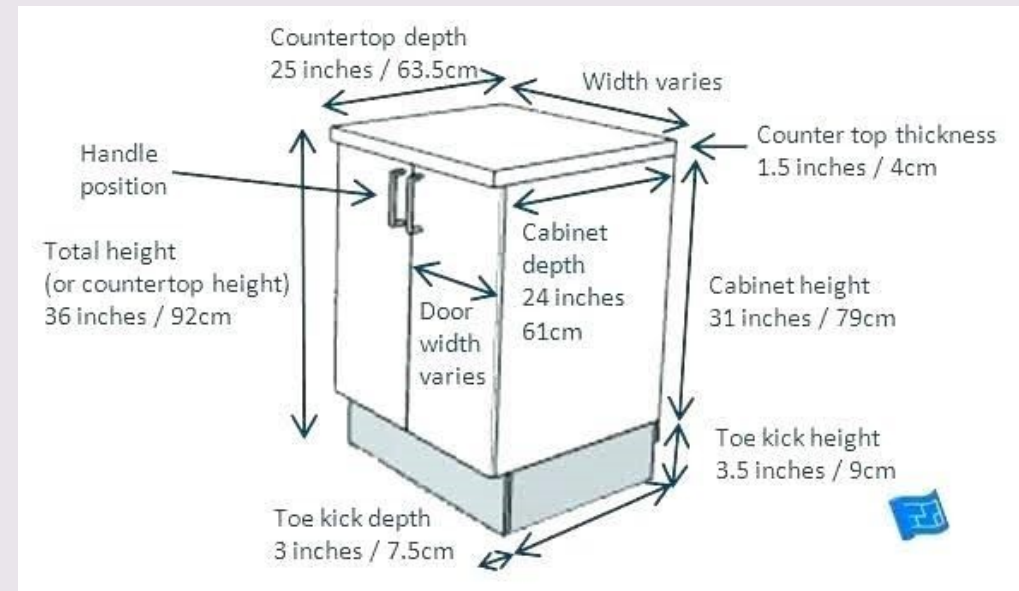

Describe the various cabinet hardware

Cabinet Size:

Typical Kitchen Cabinet Dimensions

Base cabinets - typically 24" deep (also 12", 15", 18") and 34 1/2" tall (countertops add 1 1/2" to make the finished height 36").

Upper/Wall cabinets - mostly 12" deep (also 15", 18", 24") and 12", 15", 18", 24", 30" (typical), 36", 42" tall.

Interior Working Drawing-II (68762)

Group Work.

#.Discuse About Plan of Kitchen.

Interior Working Drawing-II (68762)

Understand Architectural Drawing.

PROBLEM SOLVING-----

NEXT CLASS

- 1.1. Draw the different types of kitchen in respect of shape with detail dimension (1:20)
- 1.2. Draw the fixture in kitchen plan showing detail dimension (1:20)

Interior Working Drawing-II (68762)
